son was elected chairman, and he was assisted by B. E. Smith as cierk, and Mrs. Daisy Kraus, Geo. W. McCullough and Herbert Gothro as tellers. Dr. C. A. Canfield received nearly unanimous vote for the office of village president. This was a compliment and a fine token of appreciation for the number of years of service he has rendered as councilman. Five ballots had to be taken for the office of clerk before a nomination could be made. Chris Jénson, Carl Peterson and Lorane Sparkes were nominated. The voting was very close for several ballots, each receiving close to one third of the votes cast; Mr. Jenson, gradually pulled a few votes away from his adversaries until in the fifth ballot he was able to cross the tape with a slight majority.

ity. Holger Hanson was nominated for treasurer.
Walmer Jorgenson was nominated

for assessor.

Two republicans and one democrat were to be nominated for trustees. J. C. Burton representing the latter party, received the nomination. There ty, received the nomination. There was quite a flurry when a lady was nominated for trustee, but the idea eaught on quickly and Mrs. Daisy Kraus was nominated. Likewiss, for the third member Mrs. Robert Reagan was nominated. There was a strong aggregation of ladies present and their support of one of their sex appeared almost unsuinous. almost unanimous.

almost unanimous.

There is but one ticket in the field, the Citizens, which custom has been in operation here ever since the village was incorporated. The Village election will occur March 13, and there is hardly any doubt but that the nominees at this caucus will be elected. If ratified the council will be composed as follows:

Six years service of Dr. Canfield as

LOCAL PASTOR TELLS OBJEC-TIONS TO THE DANCE AND CARDS.

Rev. C. E. Doty of the Michelson Memorial church in his sermon last Sunday morning discussed dancing and card playing. It was a popular

and card playing. It was a popular topic and an unusually large congregation was present to hear it.

The Avalanche is pleased to publish his words, with exception of a few parts that were necessarily left out in order to save space. This issue takes up the first part of the sermon dealing largely with the dance. The remainder converging chiefly, car, remainder concerning chiefly care playing, will be published in our next week's issue. Whether we are heartily in accord with all that has been said, or are not, all must admit, if we wish to be fair, that he has given us many things to seriously ponder over

Life and Stewards.

Life and Stewards.

Life with all its wonderfu variety and interest is the gift of God. Wonre the stewards of life. We are the managers. We are to render account of how we have used life. We are to stand guard at the gates—to see that nothing gets in to work harm to out life and that nothing gets out that will work harm to another. We are to enrich, cultivate, prune, that life may be rich and full of fruitage. Anything that will hurt life or hinder its growth is an insult to God and a fot to ourselves. It is from this angle o ourselves. It is from this and

growth is an insult to God and a tot to ourselves. It is from this anglithat I approach the subject of the dance and cards.

It may be that some have come to the church this morning with their minds made up and not even imagining that anything the preacher can say can change their minds. Some may say that they have opinions of their own and nothing the preacher can say will change those opinions. All the preacher desires is that he may have a careful hearing and that what he says may be thoughtfully considered and the evidence weighed.

**There may be some who will be disappointed because I do not enter into a minute discussion of the dance, pointing out its disgusting indecenpointing out its disgusting indecen-ries and hideous extremes; because do not in a wholesale manner condemn everyone as fit for the mad house who in any way participates in such diver-sions. To say that everyone who dances is bad is to give expression to a gross untruth. Though dancing never seems to add to one's influence for good. To say that the dance and

for good. To say that the dance and cards are the two cardinal evils lays one liable to perjury as a false witness. Those these two evils are well toward the top and in bad company. There are many forms of wrong doing. Many who so bitterly criticise the dance and cards may be grade christian activities. This is not a stone throwing contests. We are tractives and sisters of seciety and well. not a stone throwing contest. We are brothers and sisters of society and we should love one another. We should try to make ourselves helpful; kind and of great service. Thus, our purpor seem to some. It is a plea for better things to displace those things that are, to say the least, questionable. For three and a half years I have thoughtfully and with the kindest motives watched the movement of things in Grayling. Ten years of the ministry before I did the same thing in other places. I have drawn conclusions and they are not hasty. **Perhaps there they are not hasty. ***Perhaps there importing the Tawas City teams to are some who can see no good any Grayling is \$137.00 thus it will require where. I do not feel that way. I feel that the good is often buried with the good is often buried with participation of little or no value at all. There is a lot of hatred, jealousy, bit fer criticism, and dissension in Gray in the graph of liberal territicism, and dissension in Gray in the graph of this; they are worthy of liberal territicism. happiness. There is, however, but one thing that will remedy the altustion—namely, more christian love. I am-spending this morning hour pointing out some things that hinder the operation of the spirit of God in the operation of the spirit of God in the operation of the spirit of God in the operation of the people. There may be many people with kindly hearts and ready-hand of helpfulness. But there are some things that offers all that is done and make all but impossible the carrying out of the christian program.

It would be easy for me to go much farther in my condemnation of the dance. And cards than I am going in this address. It is, in fact, with a bit of difficulty that I restrain myself sometimes. I have never danced in my life. I have seen but two dances one twenty years ago and the other two years ago in the school symmasium. You can imagine the change that has taken piece in the dance during the twenty years. If the dance of the more recent times should be wiped off the mmp. Dancing has never had the slightest attraction to me so I cannot know one card from another. My father, when his first boy got old enough to know cards, threw them in to play cards.

He was not a church man. No child of his ever yet into the game of cards in my life and do not know one card from another. My father, when his first boy got old enough to know cards, threw them in the paper from the standpoint of experience on cards either. OACH MORROW'S HOBOES DE-FRATED THE EAST JORDAN QUINTET 18 TO 12

The game that was played at East ordan Friday night was fast and lose during the first half. Gray ling took the lead scoring the first basket. They continued in the lead running the score up to 8, to East Jordan's 3 points. Then East Jordan used their faster speed and tied the core. Smith rung up another score and as the whistle was blowing for the end of the half, Hocksted, East Jordan's fast forward made a basket ying the score 10 to 10.

East Jordan came back fast in the second half making the first basket. Then McPhee and Taylor the Hoboes guards tightened up and the East Jor-lan quintet were unable to score again. Shith, Brown and Landsberg soon broke up their defense and be-gan to score. Brown and Smith each dribbled the length of the floor and soon broke up their defense and be-gan to score. Brown and Smith each iribbled the length of the floor and scored two more baskets. As soon as the Hobocs were in the lead they held the hall to break up East Jordan's offense. This play worked and East Jordan were unable to form their of-fense in the last 15 minutes of play, and any play they attempted was broken up immediately after it was started.

TAWAS CITY-GRAYLING, SATUR-DAY NIGHT. SCHOOL TEAMS TO MEET ON BASKET BALL

Coach Morrow's Hoboes, (high school boys) and the H. S. girls team will meet on the basket ball court at will meet on the basket ball court at the school gymnasium Saturday night. Feb. 2b, for games with the Tawas City boys and girls. This looks like the big game of the season for these teams. The Tawas boys have had a good season so far and won most of their games. Those of us who have seen our boys play will have no doubt but that they can take care of them-selves, and intend to win. The Tawas grils have won every game they have played this season and of course feel confident of victory. Our girls have oen, working hard under their coach. Miss Gideon, and each game sees them stronger and better than ever. They arronger and better than ever. They are sure to give the would-be state champions about the hardest scrap have had this season, and have a

hey have had this season, and have a good chance to lower their colors. Let's get out and back up our school teams with our presence. They can light better if they have a big crowd back of them, you bet. The cost of importing the Tawas City teams to Grayling is \$187.00 thus it will require a big crowd to pay expenses. The importance of the games should draw a large enough crowd to easily take care of this; they are worthy of liberal patronage.

GAYLORD ALL CITY TO PLAY GRAYLING INDEPENDENTS.

Special Train Will Run From Gaylord for Occasion.

Games between the Grayling Independents and Gaylord All City have been scheduled, the first of which is to be played in Grayling next Monday, Feb. 27. These promise to be the piggest games of basket hall to be played in northern Michigan this season. A special train will be run from Gaylord for the occasion, to bring in Gaylord for the occasion, to bring in their players and their loyal rooters. This promises to be a big night in sport and the big gymnasium will probably see some of the old time attendance that used to be common during the days when Arthur Karpus was playing forward for the high school, and the team went to Ypsilanti and won the state championship.

Gavlord is coming to Grayling to win, and it is a safe bet that they will come here with the strongest lineup they can get even if they have to draft some of the Ryals or some other star performers.

A. Morrow, and Grant Thompson, guards: Roy Milnes, center; Clarence Johnson and Harry Reynolds, forwards. Subs: Floyd Libeck, Colburn Charlefour, Pete Johnson and Carl Downly.

Saturday, Feb. 25, Coach Morrow's It Hoboes will meet the Tawas City Quintet. This is the last game on the home floor and is the last time that the people will see the Hoboes in action until the tournament. The Girls team meets the Tawas City Girls also. The Tawas girls team have been undefeated this year and are out for the state championship, so two fast games are assured the public. Everyone

Let's reason this to a finish.

The timber is gone for the farmer.

We have not such a soil that any

live by selling hay or grain.

I am so agitated about this matter because dairying is the one thing in agriculture that will place this county on its feet, so that our farmer folks can have the means with which to make farm life worth living.

ADMINISTRATION LEADERS AGREE

Bill Expected to Be Submitted in Both Houses At Same Time and Pressed for Passage.

Washington-Both direct and indirect ship subsidies for the upbuilding and maintenance of the American merchant marine have been agreed said last week in official quarters.

The merchant marine program i was added, has been virtually deter-mined and is in the drafting stage, with Chairman Lasker and experts for the shipping board engaged in the praparation of a tentative bill for introduction in both branches of congress late this week when President Harding plans to submit the administration recommendations.

A direct subsidy amounting to about \$30,000,000 annually was said to have been agreed upon by the president. Chairman Lasker and other Repub quith, former British prime minister lican leaders. The basic rate, it was set a good-sized and fashionable audiadded, would be one-half of one per ence, "quite by the ears," as she her cent per ton per hundred miles. This self might put it, by the very darius would be paid to operators of American ships, to aid in their operation and the extension of their trade routes. The one-half cent rate would be given to vessels of low speed, and a sliding scale, it was said, would in crease the rate to as high as one and three quarters cents per ton per hundred miles for the speedlest American vēssels.

The direct subsidy, it was stated would be the principal charge upon Guy M. Wilson Declines Appointment the treasury while more benefits, officials believe, would be received by the merchant marine from the indirect subsidies. These would include spe cial rates for carrying the United States mail and preferential railroad Marquette. Colonel Wilson explained rates. Company Rushes Tractor Output. Chicago-The International Harvester company is putting on a force of 760 men in its tractor plant. This move was construed in business circles as the opening of a battle with Henry Ford, who has declared he would put a tractor on every farm in the United States. The plant, which, in November, 1920, was employing th November, 1225, was 5 and 100 tractors a day, had been, by January 1, 1921, reduced to 400 employes, It is now operating with 700 men.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are ex-tensively advertised, all at once drop out of sight and are soon forgotten? The of sight and are soon forgatten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is a recommended by those who have been benefited, to those who are in need of it.

A prominent druggist-says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hestate to recommend, for is simost every case it shows excellent results, as many of my customera testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills at most every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the urise acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y. and enclose ten cents; also mention this paper. Large and medium size bottles paper. Large and medium size bottles for sale at all drug stores. Advertisement

Pull For Grayling or Pull Out

IN ANOTHER column of this paper appears a communication submit-ted by J. H. Wingard in which he states his views in regard to the electric service and especially on the lack of day service. There is no question but that Grayling needs 24 hour electric service, and has needed it for many years past, and as the years go and more felt. In justice to the Gray ling Electric company we have to acknowledge that they have repeatedly tried to find a way in which to render the service the public demands. It is their claim, and we have no reason to doubt their statements, that there is not sufficient water in the river pond upon which they can depend for power to operate their plant under a continuous 24 hour service. Particularly is this true in the winter time when the hours of darkness are long and when the small streams that feed the main waterway, the AuSable river, are frozen up and the supply of water is no great enough to equal the outlet. Upon several occasions this matter has been taken up in the Board of Trade and an auxiliary steam plant has been suggested. This too, claims the com pany, has been considered and esti mates made relative to the added cos of producing the extra needed powe that way, and the costs found to be so far in excess of the probable re turns from such an adventure and tha from a business standpoint it would be prohibitive. The writer personal. ly has no knowledge of the condition and possibilities mentioned above, an until they are disproven by person of engineering authority we canno help but accept the statements offer ed by the Electric company. We are

one service. It is greatly needed and we sincerely firms that within the very near future some remedy may be found for giving the public the service it requires. While many of us have been able to struggle along with engine power or have gone without power, it appears that Mr. Wingard has felt the lack of electricity more

He has offered his business for sale but just as soon as a prospect finds, he says, that we have no day electric service the deal falls thru. lemee Widew and Daughter Turned Over \$8,000; Many Pathetic Cases Have Been Uncovered.

Mt. Clemens, Mich.-Ellis Goldberg, 26, dapper stock salesman, is in jail here, on charges brought by the Michigan securities commission volving the alleged sale of \$80,000 worth of motion picture film sto without authority from the securities commission. It is alleged that the stock is worthless.

Goldberg's arrest was made Cleveland and the was accompanied here by Assistant Attorney General Green and George Hess, a Detroit of ficer. All attempt on the part of the sheriff and Prosecuting Attorney Johnson Monday to get a statement from him failed. He seems indiffer ent to the charges and makes the general statement that people who purchased his stock did so with their eyes wide open.

Goldberg came here last summer and occupied as expensive apartment at one of the leading hotels, although made to operate in this city. Romeo people were the hardest hit. Farm ers who heard of the great opportun-ity to make a fortune, scrambled over

themselves to be let in on the deal.

The warrant for Goldberg's arrest was sworn to by Mrs. Flora M. Ford, of Romeo, and was issued by Justice January 14. Mrs. Ford and her daughter, Mrs. Kate M. Loud stand to lose about \$8,000, it is alleg ed. Many pathetic stories are being told of susceptible people who invested their life's savings on the filmy chance of gaining riches. One, Peter H. Wilson recently committed to the Pontiac hospital by Judge Reid, is said to have lost \$25,000 and it unbalanced his mind.

Goldberg has not been arraigned on

any definite charge and it is proposed to held up further proceedings until his activities have been thoroughly investigated by state and county author-

Studebaker Light-Six Sedan

See This New Low-Priced Sedan!

Two more cylinders make a world of than any other light six-cylinder motor

You notice it when the LIGHT-SIX slows down to a snail's gait in traffic. You notice it when the open highway ahead invites the throttle. You notice it in the greater responsiveness, the greater flexibility, the greater s-m-o-o-t-h-n-e-s-s and in the absence of vibration.

There are new driving pleasures waiting for you in the Studebaker LIGHT-SIX Sedan.

Not only is its motor more powerful,

ever produced, but the perfect distribution of the car weight over all four wheels gives it unusual riding and driving qualities.

If you have been accustomed to driving a "four," the responsiveness of the LIGHT-SIX will be a revelation. If you are now driving another six cylinder car, the lack of vibration and perfect balance of this LIGHT-SIX will create new standards of riding comfort.

But, equally important, is the new low price of \$1750 an intrinsic value more flexible and freer from vibration without parallel in the industry!

HOSPITAL CHARITY BALL.

Storms and deep snow did not seen Storms and deep snow did not seem to keep the people away from the Mercy Hospital charity ball Wednesday night at the school gymnasium. Soft, granulated snow covered the walks everywhere and more snow was coming down; it was anything out an agreeable night to be out. In spite of this the big gymnasium was well filled and this turned out to be one of the pleasantest parties of the season.

The room looked pretty in its pa-triotic colors, and a large picture of Washington at one end or the balcony, and Martha Washington on the other and sarch prettily draped in flags, add-ed beautiful sentiment to the day that was being observed—the birthday of Washington. their work. It seemed when the mus-ic started that all that was necessary was to climb on and it would carry
you away with it.

A number of entertaining features

A number of entertaining features were presented, under direction of Mrs. E. W. Behlke. At about 10:00 p. m. it began with an overture selection by the band. Maxine Collen as George Washington and Marie Schmidt as Martha in colonial costumes, went thru a very graceful minuette. Their effort was extremely pleasing. Mark Lewis in farmer boy makeup, danced "Turkey in the straw." and brought the house down. He sure could step some. No less interesting was an esthetic dance by Helen Jane Behlke and Jane Keyport. They were very pretty in their ballet costumes. Jane quite surprised her friends with her cleverness. Of course Helen Jane did well, just as she always does, her dancing quite equalling that of the professional.

Byzopsia. Under his grandfather's will, Stanford Broughton, society idler, finds his share of the estate, valued at something like 3440,000, lies in a "safe repository," latitude and longitude déscribed, and that is ali. It may be identified by the presence nearby of a brown-haired, biac-eyed girl, a piebald horse, and a dog with a split face, half black and half white. Stanford at first regards the be-Stanford at first regards the be-quest as a practical loke, but after consideration sets out to find his legacy. On his way to Denver, the tegatey. On his way to believe, the city neariest the spot indicated in his grandfather's will, Stanford hears from a fellow traveler, Charles Bullerton, a mining engineer, a story having to do with a flooded mine.

CHAPTER III.

Waifs and Strays.

When I crawled out of my berth-atthe porter's call the next morning, my Pullman was standing in the Denver yard. While I was shaving in the washroom I asked the colored boy if my smoking-room chum of the night

before was up yet.
"Yas, sah; he done been up an' gone, for the longest.'

Of course, this was mere idle que tioning on my part. Tracing the had used me as a convenient dumping ground for his story was the least of my intention at the moment. For that matter, since we hadn't exchanged traced him if I had wanted to:

Recalling the story in the garish light of another day, it seemed a bit less credible than it had while I was listening to it, and I began to wonder ber of the deathless guild of smoke room, romancers. I buried the story among the things to be smiled at and forgotten, when I took a taxt for the After un excellent-brenkfast-l made a few inquiries about the meridian; the 105th, that the maps showed as passing just west of the city. The maps were right. The 105th meridian. which is the one from which mountain time is reckened, ranga little west of the city proper, and, by consequence, west of the two other principal cities of the state, Colorado Springs and

I found that the losth meridian, trailing it north from Denver, stops short against the 40th parallel of latitude inst south of a little town cufled Erie. Traced south, it tracks the D. &. R. G. railroad for about twenty miles and then takes to the mountain barely shutting out Maniton, and passward of Pueblo. This simplified matters—a little.

Yet this business of wandering aim lessly from post to pillar, combing the face of nature for blue-eyed maidens and piebald horses and harlequin-faced dogs was afready beginning to strike me as about the most fantastic thing a body could conceive of doing. To at-

THEILE was as little doubt that Lord Herbert Laurence Sheffield belonged to the nobility as there was about his nationality—and that was apparent immediately from his monocle and his spats. Every shop-keeper along the Via Shiala in Naples knew his lordship, and every one of them admitted that a more representative member of the British aristocracy had never visited Italy.

Lord Herbert was not only lavish with his money, but it was whispered around the Grand Hotel di Napoli that his daughter, Sylvia, soon was to be married to one of the richest men in England,

Therefore when the English nobleman wandered into the establishment of the largest jeweler in Naples some two, months after his arrival in the city and asked to be shown some diamond necklaces, there was an immediate scurry to wait upon him. Finally the proprietor himself requested Lord Herbert to come into his private oftice while he took from the safe a necklace valued at 450,000 francs, the property of a client who was in finan-

The Spread of a New Idea

-and a new idea in bread spreads

ONE of the chief reasons for the rapid spread of new ideas in America is that American women are quick to pass wel-come news to their friends and neighbors. For example, when a progressive American housekeeper discovers a delicious new food she doesn't lock up her knowledge. She becomes

Largely because of this sensible custom, Brednut-the new spread for bread-has become known quickly to most of your clever housekeepers.

If by some odd chance you have not tried Brednut ask your neighbors about it. See if they don't say that Bred-nut is just as delicious a bread spread as they have ever See if they don't remark on its welcome saving. Then try Brednut yourself and notice how its fresh and delicate flavor pleases your husband and children.

> It's made from pasteurized milk and rich tropical nuts

There shouldn't be a bit of mystery about so important a food a a bread spread. There is none about Brednut.

From distant tropical islands we bring rich nuts—a gift of Prodiga Nature. Healthy cows furnish milk which we pasteurize. Under carefu supervision immaculate equipment blends these pure ingredients to make Brednut—the new who/esome bread spread.

When your grocer delivers your first pound of Brednut, notice its whiteness. You can actually see Brednut purity. With healthful vegetable material which your grocer gives you, you can quickly color Brednut to a golden yellow.

The manure is intelligently saved and returned to the land.

This kind of farming gets right down to business and leads to soil fertility and permanent agriculture. It is exactly the kind of farming that this county needs, and that would do our soil good.

exactly those terms "They are not evil, they are not base; but their in-fluence on the community is wholly bad. They are pitiably unaware of the unworthiness of their own lives the unworthness of their own lives and they are terribly potent in lead-ing the unwary into their own vain ways. They think they are elever but it should be called another name. They break down habits and conver tions which are the antequards of civ-ilization. They are proud of their ignorance of those things which their fathers remarded as the most precious possessions of the human mind. When they read they read not the thoughtful, which captivates the mind; but ful, which captivates the mind; but the erotic which tickles the appetite. They are far more the enemies of our countries, peace and welfare than the loudest mouthed sgitator that ever stood on a soap box." I do not say that everyone is like that but the training of the present hour tends to broduce a generation of that stamp. It is in the air. It is impossible for people to know the district of it.

neonle to keen out of it. You are no-body if you do not do as the crowd does it may not be so difficult for the preacher to keep out of it but there are some with just as serious scrunles as the preacher and they are surely getting my sympathy in this day.
